

FIBRE MANAGEMENT SPOOL

Code: FSP02

The FSP02 Fibre Spool manages fibre slack in all different type of racks and wall mount enclosures. Fibre retention tabs maintain minimum bend radius control, while rounded edges eliminate the risk of snagging and stress. Designed to accommodate different cable diameters of up to 3mm, this unit can be split into half to accommodate different fibre routing as well be stacked together through a simple snap-in.

FEATURES

- Allows easy storage of excess fibre and multi-directional routing of entry and exit fibres
- Coiling of 250µm, 900µm buffered fibres up to 3mm cables
- Minimum 40mm bend radius
- Clips together allowing multiple stacks
- Can be split into half section
- Mountable via screw holes or double sided adhesive pad

APPLICATIONS

- Fibre management
- Internal and external
- Wall boxes
- Patch panels

SPECIFICATIONS

Dimensions	100 x 25mm
Material – body	ABS Grey RAL7044
Compliance	TIA/EIA, IEC, RoHS, Reach/SVHC
