

MPO ELITE TRUNK FIBRE CABLE - 12 CORE

DESCRIPTION

DYNAMIX MTP trunk cable assemblies allow for rapid deployment of high-density fibre links in a single cable assembly for applications such as data centres. The trunk cable assemblies use specialised small diameter cable to optimize cable pathway space and reduce installation time. They are designed for use with modular MTP solutions such as cassettes, panels and fan-outs. All DYNAMIX MPO products are factory terminated and tested to deliver optimum optical performance and reliability.

FEATURES

- Takes up less space and allows greater air flow for cooling
- Backwards compatible with existing MPO installations
- Factory terminated & tested
- Support data speed up to 400Gbps networking
- Infiniband or Ethernet compliant
- Connectors are compliant with IEC-61754-7 and EIA/TIA-604-5 FOCIS 5; Telcordia GR-1435-CORE,GR-326
- Cable jacket is compliant with IEC-60332 (LSZH)
