PD100W 2-in-1 USB-C Cable (C14146ABK-1.8M)

Fast Dual Charging for iPhone 16 Series, MacBook, iPad, and More

Description:

Get the UNITEK PD100W 2-in-1 USB-C Cable and enjoy the convenience of simultaneous charging on the go! Effortlessly power up two Type-C devices at once, making it perfect for school, home, work, or travel.

Product Features:

- **2-in-1 Charging Cable:** Power your smartphone and tablet simultaneously with this versatile all-in-one cable. Ideal for travelers and professionals, it reduces clutter and keeps your workspace organized.
- **Single Port 100W Fast Charging:** Supercharge your 16-inch MacBook Pro (M3 Pro) to 50% in just 20 minutes with a single 100W USB-C port. Experience unparalleled power delivery and optimal charging speeds, making it the perfect solution for your fast-paced lifestyle.
- **Intelligent Power Management:** Optimize your charging experience with smart power distribution that ensures each device receives the precise power* it needs for efficient charging.
- **Super Durability:** Made of flexible silicone material, this cable does not deform or tangle. It can rebound in just 1 second, making it easy to store. It has been tested in UNITEK laboratories to withstand over 10,000 plug and pull tests and more than 20,000 bending tests. Additionally, a high-quality coating is applied to the surface of the cable, allowing it to be easily cleaned with just a wipe. It is resistant to bending, pulling, and dirt, making it naturally more durable.

*PD1 + PD2 dual-port charging, MAX output up to 65W and 30W.

Note: This charging cable does not support data transfer and reverse charging.

Cable Length	1.8M (Power cable 1.2M + 0.6M)
