

VGA CAT5 Extender

EV214 BK

The Video Extender links a transmitter connected by a Category 5 UTP/STP cable to a receiver to extend the distance between the PC and a remote monitor and speakers up to 150M away with resolution up to 1024 x 768. Featuring common mode noise suppression circuit for superb VGA quality via inexpensive unshielded twisted pair CAT5 cables. The Local unit duplicates the input signal for local use and transmits the VGA signal to a Remote unit. Upon receiving the VGA signal via a CAT5 connector, the Remote unit broadcasts the signal to two VGA outputs. A convenient Gain (equalization) control selector on the Remote unit is designed for optimum signal clarity according to the length of the CAT5 cable.

EV214 Connection

Features

- Ultra compact
- Extend VGA signals up to 150m
- Use Cat5 cables for easy installation
- Max. resolution 1024x768@150M, 1280x1024@100M
- Local unit supports two VGA outputs
- Remote unit supports two VGA outputs
- For broadcasts, demonstrations and exhibitions
