Human friendly

Dimension	170mm x 82mm x 31.3mm
Game Card Slots	4 ports
Compatibility	Nintendo Switch/ Nintendo Switch OLED
HDMI Version	HDMI 1.4b
Material / Color	ABS Housing / Black

Description:

This UNITEK switch docking station performs much more than the official switch dock. It supports 4 games switching by pressing the button and is equipped with HDMI video output, USB-C (power supply), 3 USB ports and a RJ45 Gigabit Ethernet port, allowing you and your friends to play multiple games without changing the cards.

Product Features:

- **4K UHD Visual Feast:** UNITEK Nintendo Switch docking station supports 4K, 1080P and 720P video output*, allowing users to stream vivid media files to TV, projectors, and much more.
- **One-touch Display Switching:** Easily switch to TV and tabletop mode with one-touch.
- **Compact and Lightweight:** This Switch docking station is much smaller than the original dock and easy to carry around. Users can easily take it to friends' houses or party rooms, without having to carry the bulky dock.
- **Charge While Playing:** The charging stand allows the Nintendo Switch system to charge while in TV or tabletop mode, enabling longer play sessions. Air outlets can avoid the console overheating and keeps your Switch cool during gameplay.
- **High-Speed & Stable Ethernet:** This Switch docking station features an RJ-45 Gigabit Ethernet port that adapts to 10Mbps/100Mbps/1000Mbps network transmission.

*Nintendo Switch console only supports resolution up to 1080P
