COOLING STAND

Take your laptop's performance to another level with this ultimate cooling laptop stand with LED screen and rainbow LED lights. The robust cooling pad provides a fan speed controller for optimum performance while doing different tasks, including hardcore gaming. With up to 800 revolutions per minute, the fan ensures that your laptop never heats up. The sturdy aluminium construction with ultra-portable design makes Glare every gamer's delight. Glare is perfect for laptops up to 17".
