

REXTRON Display Port USB KVM + Audio - PAAG Series

REXTRON Display Port USB KVM with Audio

The PAAG series, fully compatible with USB specification, is the combination of USB KVM (keyboard/video/mouse) switch. You can easily operate up to 4 computers respectively from a single set of USB keyboard, USB mouse, and monitor saving your space, time, equipment and money.

Audio function (Speaker + MIC) supported. Users can switch among media sources and enjoy the output on one single display and one set of speakers + MIC. Installation is as easy as connecting USB A-B cables between computers and the PAAG series. Computer selecting is as easy as pressing the front panel button.
