Specifications:

Video Output: up to 1080p/60Hz
Video Bandwidth: 1.65Gbps
Power: 300mA
Voltage: 3.3V
HDMI output x1; VGA input x 1; USB Power & Audio x 1
Operating Temperature: 15° C to +55° C

Compatibility:

MAC OS

Windows

Projectors

LCD Monitors

ProLink-V2H, VGA to HDMI adapter lets you turn the VGA port on your Desktop or Laptop computer into an HDMI output port. With the **ProLink-V2H**, you can expand your VGA video output to accommodate the increasing number of displays and projectors that only support HDMI. This adapter ensures you're harnessing the highest video quality from your VGA output, with support for resolutions up to 1920x1080 (1080p). With a built-in USB power cable the device is powered using the USB port on your computer. The VGA to HDMI adapter will work with any computer operating system, but when working with a Windows® computer the adapter supports native USB audio, allowing you to add your computer audio to the HDMI signal.
