# SolidForce For PS5 PCIe/NVMe Enclosure

Support USB SuperSpeed 10Gbps  
External M.2 SSD for games storage &  
Speed up loading time

- Model: S1224A
- Products Features:
  - This SolidForce is an excellent solution for your PlayStation 5/4. Especially PS5 to store the games and files, and which from support PS4 as well.
  - The M.2 SSD using for PS5 should be PCIe Gen4 x4 interface with 250GB – 4TB capacity.
  - Support multi-size PCIe/NVMe M.2 SSD specifications (42mm/60mm/80mm; M Key and M+B Key).
  - Support SSD TRIM instruction and UASP acceleration.
  - With USB3.2 Gen2 specification over the dual USB-A connectors, data transfer rate up to 10Gbps. Backward compatible with USB3.0/ 2.0/ 1.1.
  - With an 10Gbps-supported extension cable for connecting with PS4 or another laptop/computer. Please be aware to connect the cable and the connector according to the instructions on the user manual.
  - Tool-free design aluminium-alloy surface for quick installation of M.2 SSD and aid heat dissipation.

Note: Not compatible with M.2 SATA drives.

- Package Content
  - 1 x SolidForce For PS5 PCIe/NVMe Enclosure
  - 1 x 10Gbps USB Extension Cable
  - 1 x Rubber Mount
  - 1 x Aluminium Heat Exchanger
  - 1 x Silicone Thermal Pad
  - 1 x User Manual

## • Specification

Color	Space Grey
Dimension	120mm x 45mm x 15.5mm
Material	Aluminium-Alloy Housing
Chipset	ASM2362
Upstream	Dual USB-A For PS5 (Connect with Extension Cable for other devices)
Downstream	<ul style="list-style-type: none"> <li>• PCIe/NVMe M.2</li> <li>• USB-A</li> </ul>
Cable Length of Attached Cable	15cm
