Active Lifestyle Management

With 100+ sports modes, track every move and progress toward your fitness goals, no matter the activity.

Heart Rate & Pedometer Sensors

Stay on top of your health with the HRS3605 heart rate sensor and SC7A20 pedometer sensor, providing real-time data during workouts.

Blood Pressure & Blood Oxygen Monitoring

Monitor your blood pressure and oxygen levels with advanced sensors to ensure optimal health throughout the day.

Bluetooth Calling

Connect to your phone with Bluetooth V5.0 for clear, hands-free calls right from your wrist, even when you're on the go.

Sleep Tracker

Track your sleep quality, ensuring you get the rest you need to power through the day with improved energy and focus.

Large 1.85" TFT Display

Enjoy vibrant, easy-to-read information on a bright 1.85" screen, perfect for outdoor visibility and effortless navigation.

Long-Lasting Battery

With a 710mAh Li-polymer battery, enjoy up to 10 days of usage or 60 days on standby, keeping you connected without constant charging.

Tough-Built Design

Crafted with a durable Zinc Alloy frame, the XWatch-R20 is built to withstand the rigours of your active lifestyle while maintaining a sleek look.

IP67 Water Resistance

Designed to handle wet conditions, the XWatch-R20 can resist water exposure, perfect for workouts or unexpected rain.

XWatch App

Download and install the XWatch app available on both Google Play Store as well as Apple App Store to track your progress, 100+ customized watch faces, and much more.
